La Societe des Quarant Hommes et Huit Chevaux, "40 & 8", is a veteran's organization whose purpose is to provide support to veterans of military service and their families. The organization was formed over ninety years ago.

At the end of World War I, France was very grateful to the United States for their sacrifice during the war, and as a gesture of friendship and appreciation, they gave each state of the Union one train box car. In that time, the train was the primary means of transportation and played a most important role in the war effort. ONE BOX CAR COULD CARRY FORTY (40) MEN OR EIGHT (8) HORSES! Thus the name of our organization. Our organization over time became caretakers of the gift from France, the box cars. Today New Hampshire's box car is preserved in a building in Manchester and is available for viewing at most any time. Since 1955, the 40&8 has recognized a need for Registered Nurses and the care they provide. We have provided financial assistance to students over the years in excess of twenty million dollars. Our Voiture 559 has established a fund to grant \$1,000 scholarships a year for as long as we are able.

Students wishing to apply for a scholarship may do so by making application with the attached form. ALL INFORMATION IS CONFIDENTIAL AND YOUR PRIVACY WILL BE PROTECTED. Scholarships are limited to students who either live or attend school in Cheshire County, New Hampshire. For more information, contact me listed below.
