

Arts Philosophy

The mission of the Hinsdale School District's Fine Arts Program is to prepare students to be successful in a diverse and ever-changing society through experiences in the fine arts. The curriculum supports the district mission of meeting the needs of all students, and the Core Values of both the Elementary and Middle/High schools, by providing opportunities for students to create and communicate through the arts and to be responsible, collaborative and reflective learners. Our progressive performance-based curriculum encourages all students to reach their academic, creative, and expressive potential.
