

## My Account 2.0 – A Good Thing Just Got Better

Since its launch in 2010, thousands of members and pension recipients have signed up for *My Account*, the New Hampshire Retirement System's secure online portal where users can access their personal account information from any computer, tablet, or mobile device.

NHRS recently launched *My Account 2.0*, an updated version of our popular portal with new features, better navigation, and enhanced security.

Because this is an entirely new website, members, retirees, and beneficiaries – even those with a previous account – will need to set up an account in *My Account 2.0*.

Account setup is a two-step process where you must request a PIN letter by entering some personal information, including your Social Security number. Once you receive the letter, which is mailed to the address NHRS has on file, you can complete the account setup.

Because there are far too many scams out there, NHRS has asked your employer to pass this message along to provide you with peace of mind that it is legitimate. However, please feel free to contact NHRS at our main phone number – (603) 410-3500 – if you would like additional assurance.

You can initiate a PIN request here:

<https://myaccount.nhrs.org/RequestPIN.aspx>

If you want to learn more about *My Account 2.0* first, please see:
